

13 KIRKLAND PLACE: LOADING AND UNLOADING

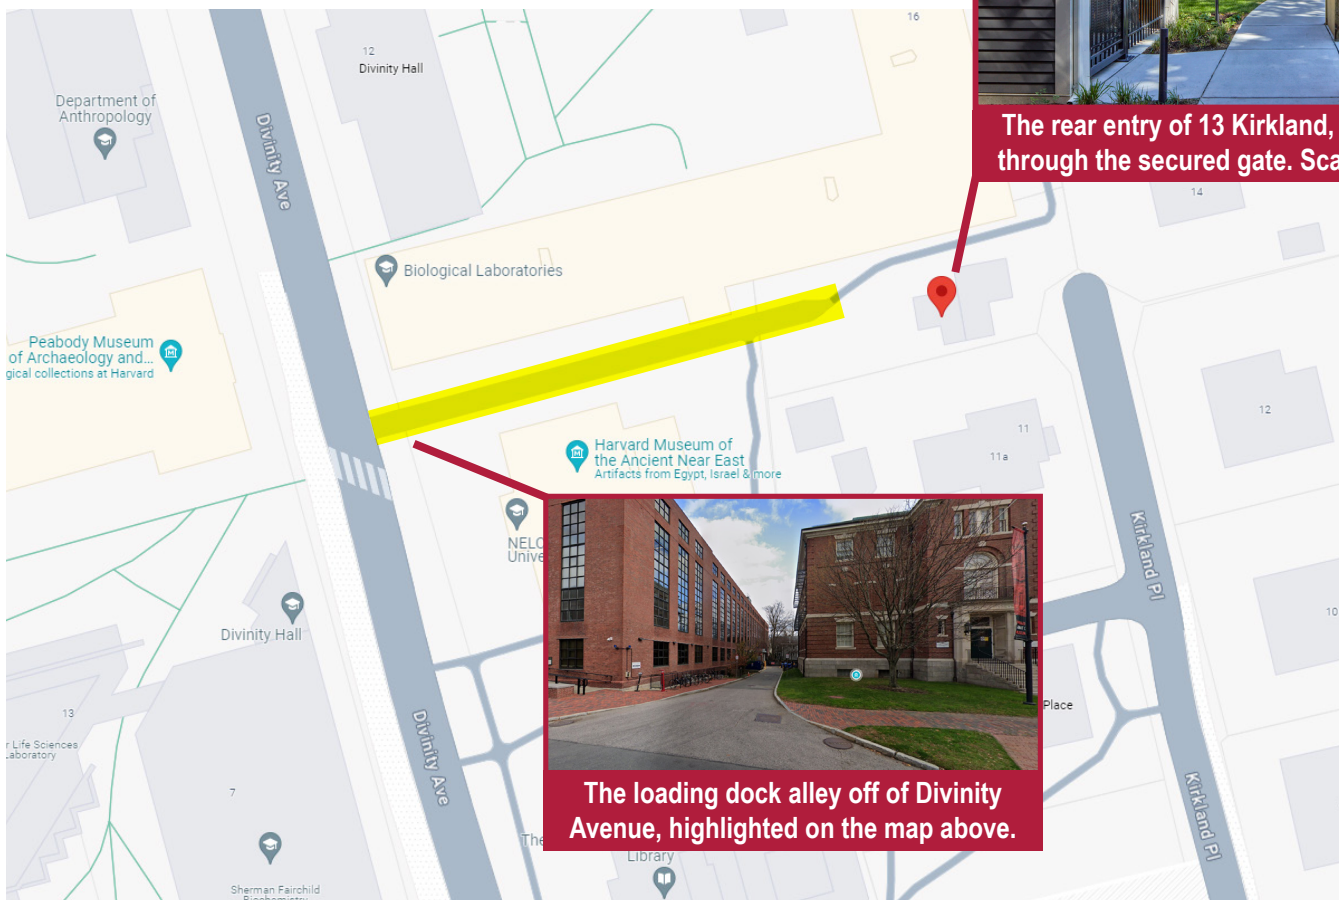

The recommended moving arrangements for moving trucks or other large vehicles are **after 4:00PM** through the loading dock alley off of Divinity Avenue, highlighted on the map below. The alley backs up to the rear entry of 13 Kirkland Place, through the property's secured access gate.

The alley off of Divinity Avenue behind 13 Kirkland Place is an active loading dock for the neighboring lab building during business hours, which means that moving trucks may have difficulty accessing it and present challenges with blocking the loading zone during business hours.

***This is for active loading/unloading only - parking is not permitted.**

The rear entry of 13 Kirkland, accessible through the secured gate. Scan for entry.

The loading dock alley off of Divinity Avenue, highlighted on the map above.

We kindly ask that you avoid using Kirkland Place street for your moving arrangements, as it blocks vehicular egress for residential neighbors on Kirkland Place. Thank you for your understanding, and if you have any questions regarding your moving arrangements, please reach out to Botanic Group Property Management.
